Fad of the Young Paris-
ienne.

Paris, June 15.—Young girls are wearing white and light tints, and several in the dainty "Trianon" shepherdess frocks have been seen. At a bazaar last week one who might have stepped out of an eighteenth century picture was seen, though she was not supposed to be in fancy dress. Her white taffeta skirt, short, plain and rather full, was surmounted with bodice and tucked-up panniers of delicate buff ground taffeta, printed with tiny flowers in chamois colors, and with a dainty lace collar and elbow fluffs.

Her bergerie hat, outlined with little white flowers, was raised high on a cachepoux of poppies, and white

and now that I will do better than come out on the porch, but run down the steps, across the yard, then through the gate to the very edge of the old past, and stay there—yes, all summer. Do you think you can do it? I wonder if any of the other old members will write as I have. I hope they will. I hope they will do for a story from Harry and I, so I will have to send one soon, hoping to please the editor. A long time ago, Editor, I promised to send a little article about the place for it on the page. I quite agree that study and school are all right, but "in the good old summertime" for me all along.

Hope You Are Well Now.

Dear Editor—I was just beginning to grow cold-headed over what a regular contribution was when I saw your call for "arms" and I felt that I ought to do something. I am not a very good writer, but I will try to do my best. I am not a very good writer, but I will try to do my best. I am not a very good writer, but I will try to do my best.

However, I am sending a poem, which I hope finds a place on the page. Did I write this for you? My prize. It was just dandy, and I enjoyed it so much. I would like to enter the contest, but as I have never attended to it, I am not sure. I am not sure, but I will try to do my best. I am not a very good writer, but I will try to do my best.

NOVELTY NEWS OF MOMENT

Totipot Wares of Cut Glass of Unique Pattern, Design and Shape.

One of the new vegetable cutters folds like a triple mirror, and when opened, its three surfaces are cut, raised, perforated or corrugated to form graters and cutters for preparing almost every vegetable used in cooking. Equally new is a brush rack with a porcelain drip pan beneath to catch the drippings. The half-dozen brushes it holds are all the long-handled scrubbing ones used in household tasks.

One of the newest salt shakers has a spoked lid cover (on a hinge), which prevents the openings from becoming clogged and the salt from becoming affected by moisture.

If the hair is worn off the forehead it is to be caught a little to the side of the front with a hair-brette of the jeweled type. This is what the new horseshoe, crescent and small jeweled barettes are for. A slight fringe covers the forehead in some of the modern coiffures, and in such styles the same ornament, or similar ones, may be worn at the side.

A new smelling salts bottle in silver deposit with a silver-plated top, and having a strictly Adams design, with festoons and a shield for the engraving of monograms thereon is among the summer novelties.

A cut-glass set for my lady's boudoir consists of a brush and comb tray, puff box and hair receiver, with a cologne bottle of unique shape. This set bears a well-concealed floral design with a checkered border upon shapes of more than the usual merit.
